-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Election/Restrictions***

1. The examiner acknowledges applicant's election of Group II claims 43-59 in the amendment filed 2/5/07. In said amendment new claims 73-84 were added, of which new claim 73 is deemed to be part of the elected Group II claims. Applicant's traverse is on the grounds that the examiner did not make a prima facie showing that the claimed inventions are independent and/or that there is a serious burden on the examiner is deemed to be clearly false as pointed out in the first written restriction mailed 1/5/07. Furthermore, non-elected claims 60-72 and new claims 74-75 are clearly patentable distinct from elected claims 43-59 and 73 because the oxo-anion and oxidic acid of independent claim 60, do not have to fall within the formulas for oxo-anion and oxidic acid as set forth in independent claim 43. Furthermore, non-elected new claims 76-84 are clearly patentable distinct from claims 43-75 since independent claim 76 does not require any oxidic acid at all.

2. Elected Group II claims, Claims 43-59 and 73, are generic to a plurality of disclosed patentably distinct species in regards to the oxo-anion, oxidic acid and cation. The species are independent or distinct because there is nothing on the record that that stand and fall together. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for each of oxo-anion, oxidic acid and cation, even though this requirement is traversed. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added.

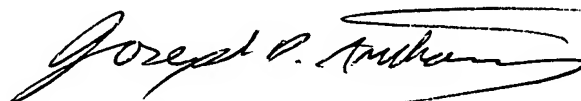

Art Unit: 1714

An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
